

"Top of the Cap"

Here's the fun car on El Capitan. Note the skylights in the roof, as well as wide picture windows. On the hi-level there are 60 seats arranged individually, as well as in pairs and in tables for a foursome of bridge or cards. The stairway at center of car leads to the lower lounge accommodating 20 more passengers. There is a refreshment bar and attendants on both levels, also on the upper level is a completely stocked newsstand.

Dining penthouse style

Dining is one of your biggest thrills and greatest pleasures of your El Capitan trip. You enjoy soft music, magnificent views, and of course, tempting Fred Harvey dishes—all high above the noise of the kitchen below. 80 passengers can be served at one sitting in this spacious dining car and everyone is pleased with the economically priced meals.

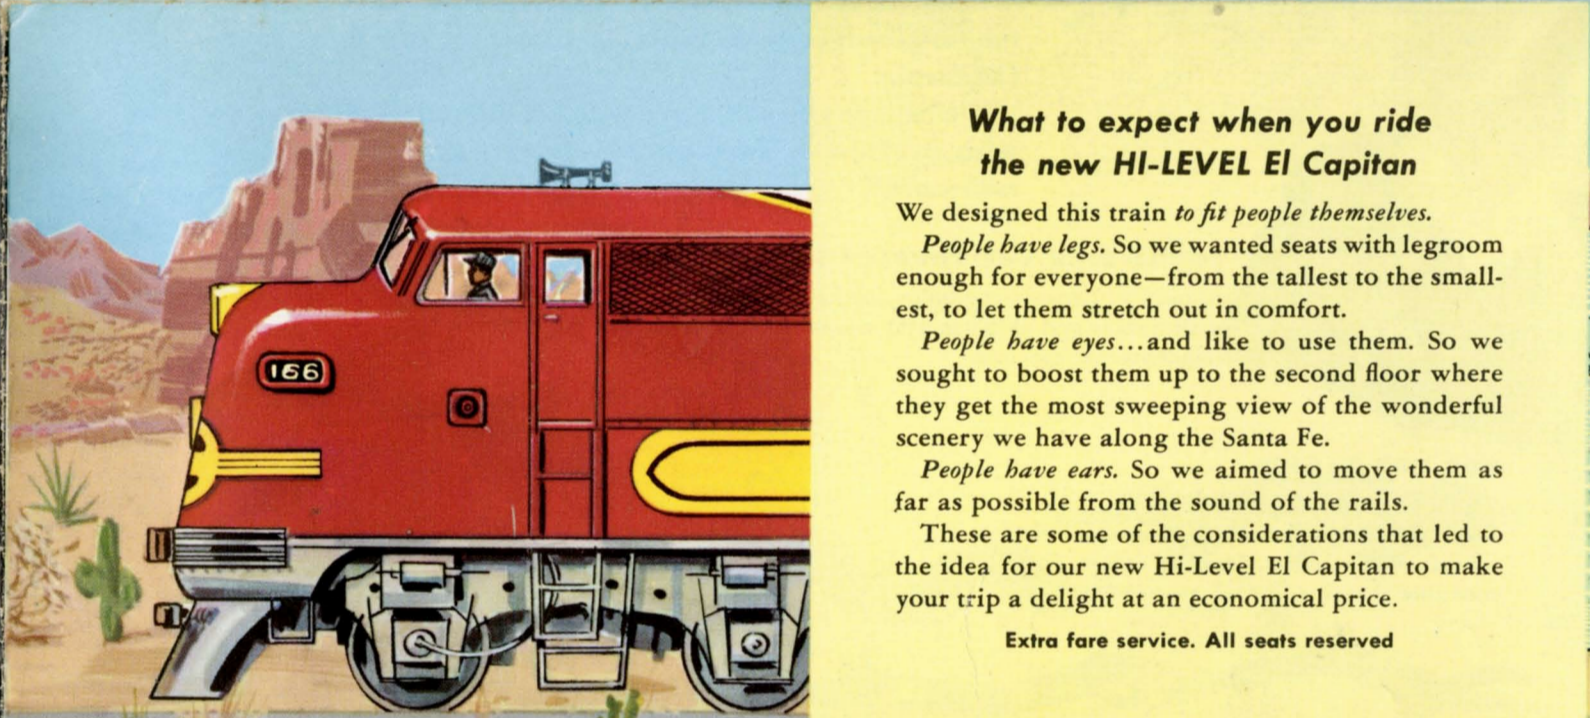

You'll like the chair cars, for each reclining stretch-out seat is located on the Hi-Level 8 feet above the *clickety-clack* of the rails. And from wide picture windows you get a "new look" at the passing scenery. A short easy stairway at the center of the car leads to dressing rooms and toilets on the lower level. The attendant, without charge, checks and stores heavy baggage on the lower level. There is a rack above each seat for small personal luggage and parcels.

What to expect when you ride the new HI-LEVEL El Capitan

We designed this train to fit people themselves. People have legs. So we wanted seats with legroom enough for everyone—from the tallest to the smallest, to let them stretch out in comfort. People have eyes...and like to use them. So we sought to boost them up to the second floor where they get the most sweeping view of the wonderful scenery we have along the Santa Fe. People have ears. So we aimed to move them as far as possible from the sound of the rails. These are some of the considerations that led to the idea for our new Hi-Level El Capitan to make your trip a delight at an economical price.
